Instructor Drop/Withdrawal

Instructor Drop/Withdrawal

- Reasons for creating the add-on
 - Can't use baseline because it allows user to **add and drop**
 - Need for a class roster-like interface

Registration Drop/Withdraw : Spring 2005

 This page is used to drop (through the 30% date) or withdraw (through the 60% date) students from a selected course and term.

Check boxes appear next to the names of students eligible for instructor drop/withdraw. Click on the check box to drop/withdraw a student.

When all drops/withdraws have been checked, press the Submit Changes button. You will then be asked to confirm your changes.

If the request is made through the 30% date, the students will be dropped from the course. From the 30% date through the 60% date, the students will be withdrawn from the course and will receive a grade of 'W'.

If the word "Confidential" appears next to a student's name, directory information cannot be released. Only the Admissions and Records office can release directory information.
