

Theatre Arts

Grace Wilson

Submitted by Katie Laris

Grace Wilson has made a profoundly positive impact on the theatre arts department since her arrival Fall 2022. She brilliantly and memorably has portrayed an extraordinary range of roles from the charming Cecily Cardew to a robotic parrot pirate while delighting all with her humor and sparkling energy. Grace has shown great talent as a director taking on challenging stories with large casts. Her leadership transformed the drama club into a vibrant engaging community and she successfully advocated for crucial safety measures on the IV bluffs. The entire theatre arts department has been fortunate to work alongside this innovative emerging theatre artist who is smart, kind, creative and joyful. Thank you, Grace, for unselfish generosity to your peers and the department.
